Caledonians Are Champions

Winnipeg, July 19.—The Caledonians of Calgary defeated the British Columbia football team at the Caledonian football competition, and won the "People's Shield," worth \$2,500. Calgary is now entitled to the championship of Canada.

Laurier Has Arrived.

Quebec, July 19.—In the lobby of the Chateau d'Alsace, Sir Wilfrid Laurier with his cap on, looked like a man of 35. Brown as a berry, smiling, and debonair, the premier accepted completely as thousands of his admirers cheered his arrival. Sir Wilfrid arrived at Rimouski at 10.30 a.m. He refused to be interviewed, but one or two important facts leaked from his casual conversation. One was that he failed the Dublin Exhibition, and another was that he may be at the big meeting at St. Pierre, at the big meeting at the "All Red" line.

Suspect Has Confessed

Winnipeg, July 19.—Frank Martin, alias Hermonious, alias Smith, who was arrested as a pick pocket at the exhibition grounds on Wednesday afternoon, detailed on suspicion of being the man wanted at Toledo, Ohio, to answer a charge of murdering, has been fully identified, and has admitted that he is the fugitive for whom the Ohio authorities have been hunting. He does not acknowledge himself to be guilty of the murder, but it is believed that there is a strong case against him. Martin is accused of having killed another man, alias "Big Hinky," at Toledo, on July 2, 1907, the weapon being a shot gun. He is well known to the police of many cities, having served terms in the Minnesota and Wisconsin penitentiaries, besides a number of jails. So far as is known this is his first appearance in Canada. The police are in receipt of a request from Chief Perry Knapp of Toledo, to hold the prisoner until he can be sent to Washington to answer the charges. A Toledo officer is now on his way to Winnipeg, while another has started for St. Paul, to secure the necessary extradition papers.

Fell Under Train

At St. Albert last night a couple of passengers on the evening train were narrowly escaped from death. The train had just pulled into the station and stopped, and all were looking at the rear coach to get of when suddenly the train jerked backward with sufficient force to send two of the passengers under the car. H. B. Dawson, of Dawson & Shields, St. Albert, and a Mrs. McDonald were injured, but it is thought not seriously.

It seems that the railway company had neglected to place a chain across the rear end of the car and when the train started backward there was nothing to which the people could cling to keep them from falling. Mr. Dawson and Mrs. McDonald were only saved from being ground to pieces by the wheels, through the timely intervention of the other passengers who succeeded in catching them as they fell and thus held them up to a certain extent. When the train stopped it was found that the man had passed over the top of the rear coach and there was some difficulty in removing her from her precarious position.

The injured parties were hurried to their homes as rapidly as possible after the accident occurred and medical aid was summoned. At the last report both are doing well although Mr. Dawson was suffering from a badly lacerated back, which it is thought that the lady possibly had sustained internal injuries.

Car Shortage Already

B. C., July 19.—All attempts to get the "Cow's" car line have received instructions to supply no more cars to sell on wells on or after the 20th inst. The "Cow's" cars were closed down yesterday for want of cars.

Mine Owners Obstinate

Ottawa, July 19.—F. A. Ackland, secretary of the Labor Department, has returned from Cobalt. It is not likely that anything further can be done by the department to bring about a settlement of the strike unless an application is made for a conciliation board. Ten of the mines have accepted the union terms, thirty are holding out, 85 are against and twenty are non-committal, about 75 per cent. of the men are working.

Railway Laborers Strike

Carberry, July 19.—A gang of about two hundred C.P.R. laborers who have been at work on the tail-raising train on this district, went out on strike yesterday. They have been getting \$17.75 per day and paying sixty cents for board and now demand \$2 per day. A number of the gang have already left for other parts in search of work. It is understood that the roadmaster has offered to accept the terms of the gang will return to work this afternoon.

A Warm Awakening

Vancouver, July 19.—R. Hebblewhite, a character well known about town and figuring frequently in police court on charges of drunkenness, and a failure to provide for wife and children, is in the hospital undergoing a fortnight of the fiery ordeal. He came home drunk and failing to get into the house went to sleep in the back yard. His wife heard him, called out to him, and he became incensed at his failure to answer, so he poured a can of gasoline over him, set fire to his clothes, and left him. His awakening came speedily, and he ran yelping about the yard, until the neighbors in night clothes appeared with blankets and smothered the flames. Badly burned he was removed to the hospital and will probably recover, but may be confined for some time. Meanwhile the wife lays another charge of drunkenness, and when he is able to leave the hospital, he must go to jail. The attorney general's department was notified of the wife's action but refused to prosecute her unless Hebblewhite makes complaint.

Yacht Blown Up

Toronto, July 19.—Annulus Jarvis compound yacht Sitarah, blew up at the foot of Yonge street at noon today, killing one woman and seriously injuring another, besides two men and a little girl. The yacht, which has sails as well as gasoline machinery, was being used in the trials of the Canada's cup challengers and ran into Yonge street wharf this morning for supplies. Everything was ready to start out and Capt. Jorgenson gave the signal to start, when two gasoline tanks exploded. Mrs. Valborg Backstrom, aged 22 of Dufferin Street, was in the cabin at the time and her escape was cut off, the cabin roof falling in on her. She was almost instantly killed. Mrs. John Johnston, aged of Dufferin St., was on the deck, she was badly injured about the face and arms. The injured are: Mrs. John Johnston, 35 years old, badly burned about the face and arms. Ed Olsen, chief engineer, right arm and face. Olof Johnson, slightly burned about hands.

The Sitarah was valued at \$80,000. Capt. Jorgenson and Charles Backstrom, sailors escaped uninjured.

Our Foreign Trade

Ottawa, July 19.—Canada's foreign trade for the three months of the present fiscal year, ending June 30 last, shows a very small growth over the same time last year. The aggregate trade was \$100,140,280, about \$100,000 over the three months in 1906. The imports show a gain of over \$14,000,000 and the exports a decrease of nearly the same amount.

SPORTS

Baseball.

Calgary Downed Capitals.

Calgary, July 19.—The home team created another surprise this evening when they defeated the Capitals to the tune of 8-6. It was a good game from the spectator's point of view, and there were some exciting moments. Last made a home run for the visitors in the fourth inning, putting the ball nicely between left and center. In that inning Edmonton got three and took the lead, Calgary only having notched up one. But the sixth saw a great change, Calgary getting no less than six men over the plate. They did not need to score. The Capitals were downed 8-6.

Calgary.....1 0 0 1 6 0 0-8
Edmonton.....0 0 0 3 1 0 2-6

Lethbridge Blanked Medicine Hat.

Lethbridge, July 19.—Medicine Hat went down to defeat when Lethbridge put it over them to the extent of a 5-0 score. The locals played great ball in all departments while the visitors could not get a run in any of their innings.

Lethbridge.....0 0 0 2 1 0 2-5
Medicine Hat.....0 0 0 0 0 0 0-0

STRATHCONA BEAT FORT SASKATCHEWAN

The first meeting between Strathcona and Fort Saskatchewan took place at the Fort yesterday, and ended in a win for Strathcona. The barracks town turned out in numbers to encourage their team, and the newly organized Fort Saskatchewan team was in attendance.

The Strathcona boys found themselves pitted against a much heavier team, whose tactics were a little rough at times, but the visitors showed a decided superiority in the finer points of the game. The Strathconas were handicapped in addition by the absence from their lineup of the Blais brothers and Smith, who interfered somewhat with their combination. The first half ended with the home team leading by a score of 1-0. The second half was 2-0. Sid Jorgenson called the balls. The Strathconas lined up as follows:

Goal, Backen, backs, Carmichael and Lovelock; half backs, Spillert, Hardy and Kent; forwards, Houston, Milne, Judge, H. Newman and D. Durrand.

Referer, Finch.

The Fort team are expected to play here next week.

Home Making A Profession

Vancouver, July 19.—At the meeting of the Canadian Council in Women it was moved on behalf of St. John's local council by Mrs. McElan, seconded by Mrs. S. G. Scott, and passed, that "in view of the present difficulties surrounding domestic life in Canada, the impossibility of procuring women help in household keeping, causing a situation that threatens to entirely annihilate our homes, the Council appoint a committee to consider the duties and responsibilities of women with regard to domestic life and the need for a profession, to further consider what can be taken to place home-making in the foremost rank among professions for women." The resolution also asked that after the committee appointed thereby (if such committee be appointed) shall have promulgated some scheme of work, the Council be asked to appoint a standing committee to carry out such parts of the work as the national council may consider wise in a manner suited to their respective localities.

Beef Commission

Vegreville, July 19.—The Beef Commission which has been sitting here for the last two days has listened to the same tale from producers of no competition and the control of P. Burns & Co. of the cattle trade.

Last year a thousand cattle were shipped from Vegreville station. These were purchased mostly by John Duggan for P. Burns & Co. The best of them were cut out and shipped to Gordon, Ironsides & Co., Winnipeg, for export. The remainder were shipped to Calgary and Edmonton. The Vegreville district, which comprises the major portion of the famous "Vermilion valley," is peculiarly adapted to the raising of cattle.

The great grievance of the ranchers here is a want of competition. This grievance is possibly felt more keenly here than in any place where the commission has sat. The only buyer outside of the local butchers is Mr. Duggan. The whole problem here is of horse and cattle in competition and wider markets.

Basel Theroux, St. Paul's Crossing, stated that he sold to Mr. Duggan, who was selling for P. Burns & Co., without contract or deposit upon the cattle at the time of sale. The price paid was cents a pound, delivered at Strathcona, a distance of 35 miles, subject to a shrinkage of 10 per cent. Witness said he had no alternative but to accept the terms of the buyer.

"What does the 5 per cent shrinkage mean?"

"It means that I really get \$5.80 per hundred for my beef when I am supposed to get \$6.00."

Robert Fairbairn and Henry Monkman gave similar evidence.

Thomas Watt, Powerville, stated that the contract system had the effect of eliminating competition and lifting the best cattle in the district out of the market months before they were to be delivered. The rancher had no alternative but to buy by contract when only one buyer held the field. Local buyers disenchanted outside buyers. The practice of P. Burns & Co. of buying all kinds of cattle and sorting out the best for export to Gordon, Ironsides & Co., had a tendency to depreciate the value of the butcher cattle, which gave an advantage to P. Burns company at the expense of the producer.

Andrew Shandro in the course of his evidence said that the farmers and breeders of Vegreville had tried to meet matters by monthly fair or stock sale, but there were no buyers. Last fair day there were 400 cattle on the market and of this number only four were sold.

Richard L. Houghton, of Whitford, gave an account of his experience in shipping two cars to Battleford last year. Though Battleford is only 180 miles from Vegreville it took three days to make the run, or 25 miles an hour. On another occasion he had a car attached to a train load consigned to Gordon & Ironsides, but the train was made in ten hours. He accounted for this fast run by the fact that Mr. Speers, the agent for the stock trade, was on the train.

To protect the stock trade, was made in ten hours. He accounted for this fast run by the fact that Mr. Speers, the agent for the stock trade, was on the train.

The Commission sits at Vermilion today, and will resume its Edmonton sitting on Monday next.

Americans Buys Another Railway

Montreal, July 19.—The sale of the Quebec and Southern Railway to the Delaware and Hudson is officially announced by President Small of the latter road. The road at present extends from St. Lambert to Percival, but the grading to Quebec will be commenced at once. The object of the purchase is ostensibly for the opening up of the Hatched Wood districts of the South Shore, but there is no doubt that the increase of New York passenger traffic may be expected to do with it. The Delaware and Hudson is now purchasing land at St. Lambert for yard purposes in connection with the extensions of the Canadian line.

Some One May Lose Job

Montreal, July 19.—If what the Daily Witness says counts for anything, some one is going to be discharged upon Sir Wilfrid Laurier's return. In fact the staff of the Witness speaks right out in meeting as follows:

"But the great work and great services are usually rewarded by opportunities for some greater, and Sir Wilfrid Laurier upon his return finds himself confronted with a task heavy enough to frighten a less brave man. There were reasons for his return from England, he being very unwilling to forsake his place at the helm at home. No one can deny that the Canadian Liberal party has fallen upon evil days. No doubt it is largely responsible for our present condition of prosperity, but nations and parties, as well as men, sometimes in getting the whole world lose their own soul."

"Once the Liberal party was the foe of privilege, the enemy of corruption, and the friend of all the sturdy virtues that go to the up-building of a nation's character. It came into power in support of these ideals. He is fast losing the faith of the people of late there have been many departures from them, and a great change of policy, which acts as a very real."

"Once before when Sir Wilfrid returned from a European triumph he found a distinguished member of his cabinet endeavoring to lead the party in ways outside the path of true politics, and when he came he did not shrink from risking a personal friendship, and to lose a lieutenant who had aided him again and again to victory. There are those who believe that he will be no less brave today."

Eclipse Stakes

London, July 19.—The Eclipse stakes, 10,000 sovereigns, distance about one mile and a quarter, for 3 and 4 year-olds, was run at Sandown Park today and won by W. B. Purdy's chestnut colt "Tally." W. Kane's "Saucy" was second and Lord Rosbery's bay filly was third. Seven horses started.

EDMONTON'S NEW CLUBHOUSE OPENED

The new Edmonton clubhouse at the top of the hill was opened last night, when a large gathering of members, their ladies and gentlemen friends were present.

President O. M. Hager, Vice-President T. M. Turnbull, and Secretary J. S. Cowan, welcomed the guests, many from outside places being present.

Richardson's orchestra played in the entrance hall. In the lounge hall above, cool ice and light refreshments were served.

The club was organized in 1899 with a small membership and now the enrolled members are 210 with about 180 resident in the city. The new club house, with furnishings, \$30,000. Its location is one of the finest in the city from a scenic view point. A. M. Calderon was the architect of the building, and Jan. McAllister, the contractor, the building committee were Messrs. K. A. McLeod, Jos. H. Morris, W. Fawcett, W. H. Clark and T. A. Stephen. The committee on furnishings and decorations, who were highly complimented last night on their artistic efforts were Messrs. C. S. Wallis and R. H. Alexander.

INCREASING CAPITAL

(Special to the Chronicle)
Ottawa, July 20.—The W. R. Brook Company are increasing their capital from one to five millions.

THE GENERAL BALKED

(Special to the Chronicle)
London, July 20.—During his long career as leader of the Salvation Army, the genial and diplomatic General Booth has kissed babies of various ages throughout the length and breadth of the empire and a few other countries, but when at Budeven yesterday he saw a mile of babies brought by their doting mothers for him to kiss, the General felt obliged to decline the task. Doubtless he thought it would be dangerous to establish a record in that line of athletics, even though his refusal should cost him a little of his popularity.

A Distinguished Visitor

Sir Montague Allan Visits The City

Sir Montague Allan, head of the Allan line of steamers, arrived in the city last night accompanied by Lady Allan and Miss Strathay, of Montreal. The party, who are travelling in a private car provided by the C.P.R., remained here over night and went to Edmonton this morning, where Sir Montague inspected the working of the Merchants Bank, of which he is president. After spending the day in the capital the party passed through Strathcona this evening on their return journey to Calgary, when they will proceed to the Coast. Sir Montague, after referring with enthusiasm to the marvellous progress of the West, proceeded to speak of the money stringency now prevailing. He said he did not think this condition would be long continued, but could not say when it would improve. The banks were not treating the West differently from the East, and there was no jealousy of the East by the West. The Eastern people regarded the country with pride and as the future hope of the Dominion. The scarcity of money was not confined to the West, but on the contrary was in Eastern Canada, where the money stringency now prevailing. He said he did not think this condition would be long continued, but could not say when it would improve. The banks were not treating the West differently from the East, and there was no jealousy of the East by the West. The Eastern people regarded the country with pride and as the future hope of the Dominion. The scarcity of money was not confined to the West, but on the contrary was in Eastern Canada, where the money stringency now prevailing.

Regarding the remedy, when present investment in the banks conditions would gradually remedy themselves and return to the normal state. Sir Montague was last in Alberta in 1886 and was at that time interested in ranching. He said he had always regarded this as a ranching country and its transformation into farms with their large fields and grain fields and gardens he considered really marvellous. He was formerly connected with the North West Cattle Co. Ltd.

An Inch A Day.

Marvelous Growth of Crop on a Strathcona Farm.

T. S. Holbrook, who lives on the Cameron farm, three miles south west of the city, brought some samples of growing grain to the Chronicle today. Barclay which was sown on the 24th of May, measures two inches and one half inches. It is fully headed out and since reaching above ground shows an average growth of one inch a day. Wheat sown on May 14th, measures two feet nine and one half inches and is fully headed out. Barley sown May 18th measures three feet eight inches. These samples were not isolated sections, but were taken at random from the field. Much has been said of the fertility of the soil in the Strathcona district and no better evidence can be desired of the strength of those claims and the forcing power of the Alberta climate than these samples. They are tangible forecasts of a bumper crop and an abundant harvest, provided weather conditions prove favorable from now on.

ANNA GOULD TO MARRY PRINCE

(Special to the Chronicle)
Paris, July 20.—It is announced that Anna Gould will marry the Prince Heli Desgout. Since the wealthy young American lady secured a divorce from her French husband, the Count Henri de Castellane, whose amours were for a long time the talk of Paris, it has been rumored at least half a dozen times that she was to be married again, the prospective husband being a different one each time.

She was to be married again, the prospective husband being a different one each time. She was to be married again, the prospective husband being a different one each time. She was to be married again, the prospective husband being a different one each time.

MADE AN END OF IT

(Special to the Chronicle)
Indian Head, July 20.—Paul Sorbie a settler, who has not been long in this country, committed suicide yesterday while in a despondent state.

PARLIAMENT MEETS IN NOVEMBER

(Special to the Chronicle)
Ottawa, July 20.—The timing of Parliament has been fixed for November 14th.

AN EXPLOSION REQUIRED.

(Winnipeg Tribune.)

As a political leader Mr. Bourassa, with all his admirers, has been able to influence only one young member in the House of Commons, Mr. Armand Lavergne.

The above is printed in a partisan journal for the purpose of discrediting Mr. Bourassa by demonstrating his failure to carry a large section of members of the house with him. The editor who wrote the quoted paragraph must know how utterly unfair it is as a gauge of either Mr. Bourassa's ability or success. With the policies of the country established upon such a sordid basis, and surrounded with all the petty meannesses that characterize political life, the wonder is that Mr. Bourassa, with his admitted ability, clearness of method, loftiness of purpose, and patriotism, succeeded in inducing even one colleague to follow him. Had Mr. Lavergne not been a very young and impressionable man, with a boundless imagination, and, we presume, some chivalry, he would not have had the temerity to break away in the smallest measure from the party thrall that envelops and blinds the Ottawa member. Experience has shown that the exhibition of the least spark of independence or manly action on the part of any member at the capital is visited by the party bosses with the most condign political punishment. The member is promptly ostracized, he is robbed of his patronage, deprived of his power, and an attempt made to ruin him politically. Already Mr. Lavergne has had the patronage of his constituency taken from him, and he has been read out of the party. The final punishment, namely, his political undoing in the county when elections come around, is still to be attempted as that the sun will shine. The editor who wrote the above unfair paragraph, designed to belittle Bourassa—who is making a splendid fight for independence and decency in public life—knows all these things, but that does not in any degree influence his action. It is most unfair to gauge Mr. Bourassa's success by the size of the following he has been able to command from the membership of the House.

Dillon McCarthy was a greater man than Bourassa, and with all the force of the strong position he had held in parliament for years, what following was he able to command?

Clark Wallace was a great and strong man, and when he sacrificed office rather than violate a high principle, what following did he command? No, it is our deliberate conviction that so degraded has public life in Canada become, largely because of the curse of blind, stupid, unreasonable partisanship, that if Mark Antony, or Demosthenes, or the Angel Gabriel, or the Master himself were to appear in the Canadian parliament and preach the immortal truths of eternity for ten long years, he would not receive one single follower. The failure would be greater than Bourassa's. Something has got to happen before a reformation can be accomplished. Bad and all as things are, they must yet become more. There must be an explosion to arouse the people from "the death-like apathy" that broke Mr. Blake's heart. Reference to the scandalous conduct of public men provokes nothing beyond a cynical smile at the present juncture. The people are evidently given over to idols.

Fencing at the Hague.

Family Herald.

The maneuvering of the Powers at the Hague must be amusing to the Devil of Peace, which is presumed to preside over the gathering, if that bird has an appreciation of humor. Great Britain, which is easily mistress of the seas and has no military ambition, proposes a relative reduction in armaments. (This would leave her in as good a position as she is at present, and would not balk any aspirations to become a great land power. Germany, which is endeavoring to win a better relative position at sea, will have none of this however. She wants the ship-building race to go on. But as she has a large sea-going commerce and is inferior to both Britain and France in naval power, she is willing that the "iniquitous" right of capture of belligerent merchantmen shall be abandoned. Austria, which has only 13 miles of sea of the same opinion; and the United States, which must depend upon foreign—and possibly belligerent—boats—to carry her freight in time of war, takes up the task of "baiting the bull" on this subject.

Germany plays a good card in this game by offering to increase the inviolability of private property on land by extending it to contractual obligations. There is not the slightest reason to expect that she will ever want to break contractual obligations for political reasons; so this offer is easily made. But the huge load of Germany in competition with France has always been guerrilla warfare upon her invading armies. When she marched into French territory in 1870, she took the greatest pains not to exasperate the French people into such an uprising by ordering

IF you require anything in the line of CARPET, CARPETS SQUARES, RUGS DOOR MATS, Etc.
